

About Me...

I am an honorably discharged Air Force Veteran. I served as a Survival Equipment Technician (Rigger) for four years. I left the military to pursue a degree in the Arts field, but knew I wanted to continue helping our fellow Veterans somehow. I was a VNAC at the LaSalle Veterans Home after service for about 3 years and loved all of my Veterans and Families there. I started in the VAC office in 2017 and with the position I was able to use my Bachelor's of Science Degree in Multimedia Design and Development by creating for our office- while continuing to help our Veterans and Families- Win/Win! I am also a mother of two kiddos... which leaves me pretty busy at home! We enjoy spending time together with our pups, going to parks, zoos and having new adventures.
